PROFESSIONAL SUMMARY

Creative and detail-oriented frontend developer with a strong foundation in React, JavaScript, and responsive design. Skilled at turning complex UI designs into clean, maintainable, and scalable code. Proven ability to build seamless, user-focused experiences across mobile and desktop platforms.

EDUCATION

WeThinkCode_

Software Development (NQF Level 5)

Cape Town, South Africa - Jan 2023 to Dec 2024

Clydesdale Senior Secondary School

National Senior Certificate

Cape Town, South Africa - 2015

SKILLS SUMMARY

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Tailwind CSS, Flutter
- UI/UX & Tools: Figma, Responsive Design, Mobile-First, Git, GitHub
- Others: Python, Java, Django, PostgreSQL, SQLite, Docker (light use for deployment)
- Soft Skills: Attention to Detail, Creative Problem Solving, Team Collaboration, UX Thinking

WORK EXPERIENCE

Freelance Frontend Developer & Web Integrator

Remote | Jan 2023 – Present

- Designed and developed responsive, mobile-first web apps using React, JavaScript, and Tailwind CSS.
- Built seamless UIs from Figma designs, ensuring WCAG accessibility and cross-browser compatibility.
- Integrated with APIs and deployed projects using GitHub Pages and Netlify.

Software Developer Trainee – WeThinkCode_

Cape Town | Jan 2023 – Dec 2024

- Developed interactive frontend components using vanilla JS and modern frameworks.
- Projects included:
 - Loadshedding Tracker: Live web app showing API data with custom UI logic.
 - Toy Robot Web: Grid-based UI interaction through buttons and status panels.
